the lines of the Louisville & Nashville Railroad Company will be to substantially establish a maximum fare of 2½ cents per mile from the Ohio River to the Gulf of Mexico.

Reduction in Revenue.

Some idea of the reductions to be made by the Company in its passenger fares may be had when it is understood that the reduction in Kentucky, Tennessee, and Alabama will represent an annual reduction in passenger revenues of about \$600,000. In Kentucky alone, the annual reduction in revenues will amount to about \$130,000 on interstate traffic, and about \$250,000 on interstate traffic or to a total amount of about \$380,000.

Illustrative Changes in Fares

The following list of existing fares and the proposed new fares is illustrative of the reductions which will be made:

From	To	Present Fare	New Fare
Louisville	Bowling Green	\$4.10	\$3.84
Lebanon	Louisville	2.02	1.68
Corbin	Williamsburg	.58	.44
Middlesboro	Covington	6.74	5.74
Louisville	Guthrie	4.92	4.10
Jensonsboro	Russellville	2.15	1.80
Henderson	Hopkinsville	2.22	1.85
Louisville	Worthington	1.62	1.4
Frankfort	Lexington	.80	.72
Anchorage	Shelbyville	.57	.48
Paris	Richmond	1.16	.98
Louisville	Nashville Tenn.	5.50	4.67
Louisville	Memphis	11.40	9.51

Date Effective of Changes

The proposed reductions will be made effective as soon as the tariffs can be compiled and issued giving the notice required by law. It is now estimated that the new intrastate tariffs will be made effective about April 1st or shortly thereafter (certainly not later than May 1, 1914), and that the interstate tariffs will be published immediately thereafter to be effective not later than July 1, 1914. The great majority of interstate fares are joint with other railroads and such cannot be compiled until the various State tariffs in the several States are compiled; the interstate tariffs require the co-operation of all connections, and as the fares in these are far more numerous, involving many thousands of figures which have to be calculated, there is naturally delay. The legal notice required in connection with interstate fares is 30 days.

MARETBURG.

We are glad to say that the measles are all reported better in Maretburg. The little daughter of Mr. and Mrs. Wick Thompson who has been very low for the past few days is reported better at this writing. Mrs. F. M. Marshbanks has returned from Pineville, where she has been visiting her parents for the past few days. Mr. and Mrs. J. J. McCall are in Tennessee for a few days. Mr. and Mrs. Sam Roberts, of Brodhead, have moved in the Reynolds house at Maretburg. We are glad to have them in our village. Bert Owens and his father-in-law, Samuel Tyree have opened up their sugar orchard and are in the sugar business now. Miss Ethel Roberts and Cora Young were in Mt. Vernon shopping Saturday afternoon. Mrs. Sam Roberts has been very sick for a few days. Bert Owens sold a young horse to Bill Brown for \$115.00. Bro. Harper, one of our preachers is down with measles. Meeting is still going on and will continue for the next week or two.

"WE STAND BY WHAT YOU BUY"

ANNOUNCEMENT BY THE LOUISVILLE & NASHVILLE R. R. CO., OF A VOLUNTARY REDUCTION IN THE RATE OF PASSENGER FARES IN KY., TO TWO AND ONE HALF CENTS PER MILE

The Louisville & Nashville Railroad Company announces its intention to reduce in the immediate future, (not later than May 1st, 1914) the passenger fares on its lines in the State of Kentucky to a maximum of 2½ cents per mile ACTION VOLUNTARY

This action on the part of Kentucky's principal rail carrier is voluntary, and is taken in order to equalize the rates in its home State with the rates effective on or before the date mentioned in the States of Tennessee and Alabama.

This Company adheres to its belief that a 3 cent fare is not wholly remunerative and is not unfair to the public. Nevertheless, in deference to public opinion, particularly in other States, the management has decided to apply the lower rate in the hope that increased volume of traffic will save material losses, and pur-

suant to promises heretofore given the people of Kentucky it promises to place Kentucky on the same basis as other States. Should the reduction prove disastrous, the Company will appeal to the Railroad Commission for such readjustments as will be fair under all conditions.

EXTENT OF TRAFFIC AFFECTED
The reduction to be made will apply to all of the lines operated by the Louisville & Nashville Railroad Company for its own account in the State of Kentucky, with exception of a few branches and new lines on which the passenger business is not now remunerative or is conducted at a loss.

The reduction will be made effective on lines which now are producing over nine tenths of the Company's total passenger earnings in the State of Kentucky; thus will effect nine-tenths of the Company's passenger business.

Reduction Applies to Both Interstate and Intrastate Traffic.
The reduction proposed in Kentucky will not only apply on interstate travel between points within the State, but will also apply on interstate traffic over the same lines to and from points within the State and thru the State; also, similar reductions have been or are to be made on the principal lines of travel in the States of Tennessee and Alabama, effect on interstate travel on

THE banquet given last Friday night, at Frankfort, by the Young Men's Democratic Club, of Kentucky, was a success in every particular. Over 300 Democrats from all sections of the State were present. The speakers included all four candidates for United States Senate. There was only one thing that marred the occasion and that was the advantage taken by Congressman Stanley to espouse his cause for the Senatorial nomination. In doing this Mr. Stanley broke a rule laid down by the Club. All the candidates were invited to be present and make a talk, but were asked not to mention the Senatorial race. They each complied with the request except Mr. Stanley, who spoke last. Several Democrats who were present and heard Mr. Stanley, say it was the same speech he has been delivering on the stump. After the banquet several Democrats who have been supporting Mr. Stanley were heard to say that they would not support him any longer, but would vote for Ex-Governor Beckham, whom they declare made the best speech of the evening. There is no doubt but what Mr. Stanley lost himself many votes by his action on that evening. His closest friend are openly censuring him and say he made the mistake of his life. The demonstrations given the various candidates as they arose to speak clearly showed that a majority of those present favored Mr. Beckham for the Senatorial nomination. The ovation lasted fully five minutes. There is no doubt in our mind but what the Senatorial race is already decided. The other candidates had as well save themselves time and money. The people of Kentucky are going to send Beckham to the United States Senate. The whisky trust defeated him in 1908. The Democratic voters in a popular primary had selected him for the honor and the responsibility and their choice was betrayed by the treachery of four of their own representatives in the General Assembly at the behest of the whisky trust; because Beckham's administration had been made notable by the enactment of a local option law, under which an hundred of the 119 counties had gone dry, and because he had dared recall the Legislature in special session in 1906 to enact the rectifiers license, which the trust had smothered in the regular session, and because he had closed the Louisville Saloons on Sunday. Mr. Beckham is still the nominee of the Democratic party and the voters next fall intend to right the wrong done them in 1908, and with the ballot in their own hands elect him to the Senate. Rockcastle will do her part.

WHEN the Louisville Times goes after a thing it goes the whole hog. On the good roads question, State and National aid thereto, its proving itself a wheel horse. Every Saturday for the last month it has published a half page map of Kentucky showing the proposed 6200 miles of turnpike to connect every county seat in Kentucky with neighboring county seats; giving roads in from four to six directions for many of them. Congress and our Legislature are on a clear track under full head of steam, a good engineer at throttle and a safe quick run will be made. Old fogies and obstructionists had best "stop, look, listen," and keep off the track or get everlastingly run over and flattened out.

The men who spend all their time reading the Bible will be surprised when they get to heaven and find that the men who always paid their grocery bills are occupying reserved seats in front.

FEDERAL aid or good roads is not only a certainty, but a certainty of the present session. The Shakerford bill has passed the House by a vote of more than 6 to 1. It will have equally smooth sailing in the Senate.

The bill provides that Federal aid shall be conditioned on State aid. Kentucky does not now grant State aid. Unless such aid is granted Kentucky will lose the sum of \$583,000 a year—its proportion of the \$25,000,000 appropriation the Government now stands ready to make for the building of good roads. State aid will cost Kentucky \$600,000 a year in taxes, of which the city of Louisville alone will pay the neighborhood of a third. The cities of Lexington, Covington and Newport and the counties of which they are the chief cities will contribute a fourth. Which means that 116 counties in Kentucky will be called on to raise by taxation decidedly less than \$900,000 a year to share in the benefit of a State road fund of \$600,000 and a Federal fund of \$583,000.

The Times reproduces to-day the map and table showing how Kentucky, in eleven years, can, under the plan here outlined, build a Statewide system of roads providing thoroughfares north and south and east and west and making every county seat a center of not less than three of the roads forming its connecting links.

The argument for State aid, without Federal aid was strong. The argument for State aid with Federal aid is not to be gainsaid. There are now eighty-nine rump counties in Kentucky. There are more than sixty counties that have't a single mile of improved road. In eleven years, every one of these counties can be made a permanently prosperous county.

The Representatives from Jefferson and Kenton counties are pledged to State aid. Will the Representatives of the eighty-nine rump counties do as much in their own behalf?

If so, State and Federal aid will be made an accomplished fact before the present year is six months older.

The Speaker of the lower house of the General Assembly is an announced advocate both of good roads and the Statewide, county seat plan of building them. No man could ask a fuller measure of opportunity for great and lasting service to the State than is now in the hands of Claude B. Terrell. Heretofore the Kentucky Senate has never failed to vote for State aid. The House has never failed to oppose it. If Mr. Terrell can bring the house to his way of thinking the fight is won—Louisville Times. The House saw it his way.

If that bunch who compose the Kentucky Legislature had to be depended upon to build a great railroad or fire insurance company how many of either would Kentucky have? Kentucky needs more railroads as well as many other big industries, but as long as we have to be infested every two years with such disgusting affairs as this present Legislature as well as some in the past, Kentucky will stay right on the half way ground. More taxes, to provide for more officers for more grafters at the expense and to the detriment of every business interest of Kentucky is all that Kentucky gets from these biennial meetings of so-called solons at the capitol.

THE Editor of the Stanford Interior Journal who is also a member of the present legislature from Lincoln county cast his vote against State and National Aid to roads, when a bill was placed on its passage in the House at Frankfort last week. The bill carried all right as it should, but what excuse any member could offer, and especially an editor, for fighting good roads, is beyond us.

GOOD health demands that the mouth be kept closed while asleep. Cases are known where a man's health would be in better condition if he'd kept his mouth closed while awake.

The married life of Mrs. Ada Blizzard, who is applying for a divorce from her husband in Sidney probably be a no less tempestuous than she just couldn't weather the storm any longer.

INTERMISSION.

JIMMY HAD A LITTLE TELEPHONE.
Dedicated to JAMES MARY.

Jimmy had a little telephone. It was connected with the B-11, and when he sends a telegram, You ought to hear him yell.

So now, Jimmy stands at the telephone. From morning until night: Until he loses his temper, Also his appetite.

You can hear him hollow out and say, "You blockhead, I gave you Brown, Until there is great excitement With the people all over town.

You can hear him at midnight, When he ought to be in bed, Calling out for Judge Belburn, Or answering Brodhead.

Not long ago he lost his temper, And you can hear him yell, When he dropped his last penny, In the little slot machine.

So, he called up Graves at Livingston And said, "Wade this is me; Come to town on twenty-two, And don't forget the key.

But we have found a remedy, Which in our mind is stored, That will take the place of Maret; It is an automatic board.

So, Jimmy, we will let up now, And we believe that we should; And we will say nothing further, If you will promise to be good.

But one word in conclusion, For which Jimmy can never atone, For the way he loses his temper At the little telephone.

Announcing The New Typewriter OLIVER No. 7

WE ANNOUNCE AN AMAZING MODEL—The OLIVER No. 7—a typewriter of superexcellence, with automatic devices and refinements that mark the zenith of typewriter progress. A marvel of beauty, speed, and easy action. Typewriting efficiency raised to the nth power.

The OLIVER No. 7 embodies all previous Oliver innovations and new self-acting devices never before seen on any typewriter. A leap in advance which places The Oliver ten years ahead of its time. So smooth in action, so light to the touch, so easy to run, that experts are amazed. A model that means to the typist delightful ease of operation.

A model that means a higher standard of typewriting, longer and better service.

The No. 7 is now on exhibit and sale at all Oliver Branches and Agencies throughout the United States.

The new model has more improvements, refinements and new uses than we can even enumerate here.

The "cushioned key board with anchor keys" and the new automatic features mean less work for the hands, less strain on the eyes, less manual and mental effort.

With all of these masterly mechanical improvements we have made the machine more beautiful and symmetrical. From every standpoint The OLIVER No. 7 attains superlative excellence.

Nothing you could wish for has been omitted. The new devices, refinements, improvements and conveniences found on the No. 7 represent an enormous outlay and vastly increase its value—the price has not been advanced one penny.

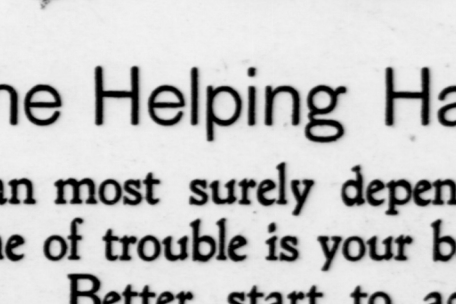

We shall even continue to force our popular 17-Cents a Day purchase plan, the same as on previous Oliver models.

The OLIVER No. 7 equipped with the famous Printype, if desired, without extra charge.

You owe it to yourself to see the new machine before you buy any typewriter at any price. Note its beauty, speed and easy action, its wonderful automatic devices. Try it on any work that is ever done on typewriters. Try it on many kinds of work that no other typewriter will do.

It is a significant fact that the typewriter that introduced such epoch-making innovations as visible writing, Printype, etc, should be the first to introduce automatic methods of operation.

The young women of the Presbyterian church will hold a "Pantry Sale" at the store of Mr. A. B. Farnish on Saturday afternoon, March 7th, beginning at 2 o'clock. If you wish any of the following articles, come early as the supply will not be unlimited: Light Bread, Beaten Biscuit, Steamed Brown Bread, Doughnuts, Potato Chips, Butter Scotch Pie, Marshmallow cake, Candy.

County Superintendent W. A. B. Davis is making considerable complaint about the condition of the school fund, as shown by the record turned over by his predecessor, Mr. J. W. Kincer. Mr. Davis says that the school fund shows a shortage of about \$5000. Mr. Davis does not charge that any of the fund has been improperly used, but that Mr. Kincer and his board spent more money than they should have, unless the revenue had been larger. The indebtedness of the school board was made as a result of the efforts of the board to comply with the demands of the county for comfortable school quarters. To the casual observer it looks like that the school fund-indebtedness might continue to increase, if the fiscal court does not make provisions for more money or the Board stops building houses, repairing others and providing the necessary conveniences and equipment. It takes money to provide for all the schools in the county, and the fact that the County Board only had 10 cts on the one hundred dollars, and considering the taxable property and the number of school districts to provide for - and it is justice to say in behalf of the retiring Board that they provided for a large number of districts, some with new houses, that it is no surprise to those who know anything of conditions, to learn of the indebtedness of the county. On the other hand the present Superintendent has taken the right course in bringing the facts to light that the people may know the exact conditions. If the rural districts expect to have comfortable school houses and the necessary apparatus for the best results the tax payers may expect to pay sufficient tax to provide these equipments, for without the money it is very evident they can not and will not be provided.

THINGS THAT MAKE A TOWN NO. 2.

(By -EV. G. S. WATSON.) ITS SCHOOLS

From the beginning of the Christian era, if not from the beginning of time itself, the child has been the world's greatest problem. Modern society has come to recognize that the child, undeveloped and imperfect though he be, has, like the citizen, certain inalienable rights. He has certain physical rights, the right to know both the joys of work and play. He has certain intellectual rights, the right to be trained to study, to think, to reason. He has moral and spiritual rights - the right to a knowledge of God, and of his dealings and requirements of men.

That community or that State which has satisfactorily solved the problem of the adequate education of her children has laid the foundation of future strength and prosperity. Therefore, we consider one of the leading factors in the life and upbuilding of a town to be ITS SCHOOLS.

What is education? We have seen many definitions, - some of them so complex and technical as to be bewildering. For our purpose we will be satisfied with calling it the awakening and training of faculty; the complete preparation for life. Ask the mechanic the purpose of education, and he will tell you it is to give a man that knowledge that will enable him to make an honest living. Ask the statesman the same question and he will tell you that the primary object of education is to make citizens. Ask the philosopher and he will tell you that it is to make men think and reason. Ask the true educator and he will tell you that it is to make character.

Shall we say that any of these answers are wrong? We think not, we would rather agree with them all, and largely with Herbert Spencer, who referred to the purpose of education as a "means of forming the worker, the parent, the thinker, and the citizen." We believe the immediate end of education to be to fit any man to earn an independent living. Any man who does not earn such a living becomes a burden on the State. And the better and firmer work a man can do, the more wealth he can produce, and the greater contribution he can make to the State and to society. It hurts no intellect to be able to make a boat or a house or a chain. And the more students the schools of Mt. Vernon turn out, capable of making an independent living the richer and the better Mt. Vernon will be.

But this principle must be emphasized too exclusively, for men have to live as well as to make a living. Success as a mechanic or merchant is one thing, and success as a man is another. Most of the studies in the grammar grades are calculated to increase a man's efficiency; but when he gets into the High School, he finds studies there like Latin and higher literature, that are calculated to broaden his horizon. To have efficiency in our work, which perhaps, occupies eight hours a day, is a good thing, but to have this, and this alone, is a very unfortunate thing. There are eight hours of leisure and recreation as well as eight hours of work, and the best educational systems include education for life as well as education for a living. It is a pitiable sight to see a man capable of making a good living but incapable of enjoying himself outside of his working hours, and who has not been trained for citizenship. There is yet a higher phase of education. Knowledge without morals is usually a menace to the State as well as to the home. A man who merely has his head stuffed with facts, figures and definitions is not an educated man. As one of our Ky. judges recently said at a banquet: "The end and aim of teaching should not be the acquisition of knowledge, but the upbuilding of character, and any system that does not recognize this fact is a failure."

Perhaps you are now ready to say that we have laid out a big task for our schools and educators. We admit it, - a very large task, and one that cannot be effectively accomplished without the cooperation of both the home and the church. But we feel that the

school has a right to expect help from both of these sources in carrying out the large program outlined, for the complete education of all the children.

In describing the purposes of education we have already suggested the chief advantages of education, and shall here only take time to refer to the simple but profound statements of the old Scotchman on the subject. He came to his pastor one day and remarked: "And isn't it a good thing to give one's lassies a good education?" "Yes," his pastor remarked. "It is a good thing, sir, because it will bide with them." "Yes indeed," his pastor answered "it will abide with them." "And it is so easily carried about." "Very true," said the pastor. "Very true; there are no express charges on an education."

But to revert more directly to the original subject for we might be accused of the error of the old colored person, who after having announced his text, turned to the congregation and said; "Brethren dis here text is divided into two parts, first de things dat are in de text, and secondly, de things not in de text. And Brethren we will wrestle with de second part first."

Do the schools of a town contribute any large element in the building of the town? We answer they do. Not more than two weeks ago, we had the pleasure of addressing about 250 students most of them over 12 years of age, who were gathered in a school where 12 years ago, there was no town, no school, no church. The school had made the town, and though situated off the railroad, and in a poor county, agriculturally, it had drawn students from many counties and communities. And today the growth of the town is following the growth of the school, and not the opposite. Of course you say that this is the exception. And we will admit it. But it is the exception only because the school is so exceptionally strong that it leads all other influences in the community.

Citizens of Mt. Vernon, we have schools of which any community might well be proud. Many communities are not so fortunately situated as we are, for it is not every school that has teachers, who, in addition to being well trained, have culture and Christian character, all of which are essential to the complete and highest training of children. Do we look upon our schools as a big asset in the community? Would we be willing to lose them for any price? We think not. Then let us not limit or cripple their usefulness by any indifference or half hearted support.

Everybody, all together, first, last and always, for the schools of Mt. Vernon.

How to Detect the Alum Baking Powder

"Which are the alum baking powders; how can I avoid them unless they are named?" asks a housekeeper.

Here is one way: take the can of a low-priced powder in your hand and read the ingredient clause upon the back label. The law requires that if the powder contains alum that fact must be there stated. If you find one of the ingredients named alum, or sulphate of aluminum, you have found an alum baking powder.

There is another and a better way. You don't have to know the names of the alum powders. Use Royal Baking Powder only; that assures you a cream of tartar powder, and the purest and most healthful baking powder beyond question.

Uncollected Taxes for 1913 \$74 75 stands today as follows: \$1376 96 Notes in Banks 505 00 \$80 75 of this amount is held in Note to individuals \$1200 00 vouchers and claims, so the actual amount of uncollected taxes is \$14 00.

UNPAID TAXES There is also due from L & N R.R. taxes for franchise. These taxes have heretofore been paid over in the following February after close of year for which they are due. The tax on tangible property was paid on Feb. 29th 1914; amount \$102.70; the franchise tax yet remains unpaid, probably on account of some attempted readjustments between the Company and the State Railroad Commission on the franchise subject. The indebtedness of the town

Of this amount \$650.00 was used in constructing the Pike at top of school house hill (to make connection with county pike) and other expenses. Other legitimate expenses of 1912 added \$200 more and counted with the indebtedness existing at the beginning of 1912 makes the total as above. It will be remembered that owing to the unfortunate misunderstanding and squabble ensuing therefrom, no taxes were collected for the years 1911 and 1912 which accounts for the town having any indebtedness at all.

HUSBAND RESCUED DESPAIRING WIFE

After Four Years of Discouraging
Conditions, Mrs. Bullock Gave
Up in Despair. Husband
Came to Rescue.

Catron, Ky.—In an interesting letter
from this place, Mrs. Bettie Bullock
writes as follows: "I suffered for four
years, with womanly troubles, and during
this time, I could only sit up for a little
while, and could not walk anywhere at
all. At times, I would have severe pains
in my left side.

The doctor was called in, and his treat-
ment relieved me for a while, but I was
soon confined to my bed again. After
that, nothing seemed to do me any good.

I had gotten so weak I could not stand,
and I gave up in despair.

At last, my husband got me a bottle of
Cardui, the woman's tonic, and I com-
menced taking it. From the very first
dose, I could tell it was helping me. I
can now walk two miles without its
helping me, and am doing all my work."

If you are all run down from womanly
troubles, don't give up in despair. Try
Cardui, the woman's tonic. It has helped
more than a million women, in its 50
years of continuous success, and should
surely help you, too. Your druggist has
sold Cardui for years. He knows what
it will do. Ask him. He will recom-
mend it. Begin taking Cardui today.

Fred Sowder was in Mt. Vernon
Monday on business.—The Farm-
ers Institute held its place
February 26th, was largely at-
tended. This institute was held
by the State Agricultural Depart-
ment. A program had been pre-
pared in which some home talent
was used to add pleasure to the
occasion. The Institute was held
in hall over Citizens Bank, and
the attendance was so large it was
found necessary that other quar-
ters be secured for the lectures of
Mrs. Ginn on Domestic Science.
The Directus room of the Bank
was secured and a very interest-
ing meeting was held. A number of
good speakers were present, and
each gave splendid lectures on
different subjects. Miss Ella Car-
son, who has been organizing can-
oeing Clubs over the county, was
present and gave an interesting
talk. Prof. T. H. Likins, of the
Graded school, made an interest-
ing talk on the Corn Club of Rock-
castle. Great interest was mani-
fested thruout the entire meeting,
and we hope by another year to
enlist more of Rockcastle's farm-
ers and those interested in this
line of work.—A small child of

early Monday, and was laid to rest
in the Methodist church cemetery
the same afternoon. I was a
sufferer of asthma, and contracted
measles and the two diseases were
more than its weakened condition
could stand. The parents have
the sympathy of the entire town.
—Miss Susie Roberts died at the
home of her parents, Mr. and Mrs.
Hiram Roberts, in Junction City,
Tuesday and was brought here
Wednesday for burial. She had
been in bad health for some time,
but until recently it was not
thought to be of a serious nature.
She was a beautiful young lady,
and we understand was to have
been married in the near future.
The Rev. A. J. Pike held funeral
services, at the Baptist church, of
which she was a member, after
which she was laid to rest in the
Christian church cemetery.

Among those attending the fun-
eral from Junction City were Misses
Laura Kelly, Kate McCarty, Mrs.
Cosby, Bertha West, Mrs. W. D.
Wallin, Mrs. H. C. Caron, J. L.

Children Cry for Fletcher's CASTORIA

The Kind You Have Always Bought, and which has been
in use for over 30 years, has borne the signature of
Dr. J. C. Fletcher and has been made under his per-
sonal supervision since its infancy.
Allow no one to deceive you in this.
All Counterfeits, Imitations and "Just-as-good" are but
Experiments that trifle with and endanger the health of
Infants and Children—Experience against Experiment.

What is CASTORIA

Castoria is a harmless substitute for Castor Oil, Pare-
goric, Drops and Soothing Syrup. It is pleasant. It
contains neither Opium, Morphine nor other Narcotic
substance. Its age is its guarantee. It destroys Worms
and allays Feverishness. For more than thirty years it
has been in constant use for the relief of Constipation,
Flatulency, Wind Colic, all Teething Troubles and
Diarrhoea. It regulates the Stomach and Bowels,
assimilates the Food, giving healthy and natural sleep.
The Children's Panacea—The Mother's Friend.
